ICLife: Campus Accessibility

Easy to read

Campus Accessibility

This talks about how university should make sure that they are accessible for people with intellectual disabilities.

People with intellectual disabilities have the right to go to school like everyone else.

All the teaches need to make sure that all people with intellectual disabilties can enter and exit their class.

People with intellectual disabilties
have a right to get a better education.

All people with intellectual disabilties
want to make new friends and meet new people.

The information that the teacher gives to all the students need to be in easy to read so that people with intellectual disabilties can understand what the teacher is saying.

It is a good idea that students at the university are paired with a person with an intellectual disabilties.

The teachers and staff need to have training so they can know how to best help people with intellectual disabilties.

All people with intellectual disabilties want to make sure that they know they have a right to be included in university life.

There is a computer app called Blue Assist.

Blue Assist is a computer app that can be download for laptops, smartphones, iPad.

It is an app that works by translating what the person with intellectual disabilities is saying in their own languages into English.

This app helps people with intellectual disabilties in the following

Taking the bus

Asking for directions

Ordering at restaurants
